This is quick “How to” for editing files on this wiki.

All you have to do to edit a page is:

1. Click the “Edit this page” button (the pencil on the right side of the page)
2. Edit the page
3. Answer the CAPTCHA (solving an addition or subtraction problem) to prove that you're human.
4. Click the “Save” button under the edit window.

In general, just type the information. Leave a blank line between paragraphs. You can use the buttons above the edit window for formatting. See the [Formatting Syntax](#) page for a full description of formatting commands.
